

Crochet Christmas Tree Pattern

Free Step-by-Step Amigurumi Tutorial

Beginner-friendly | ~1-2 hours | 15 cm tall

Materials

- Worsted weight yarn in green (tree), brown (trunk), yellow (star), red & gold (ornaments)
- 4.0 mm crochet hook
- Polyester fiberfill stuffing
- Yarn needle
- Scissors
- Stitch markers (optional, but helpful)

Abbreviations

- sc = single crochet
- inc = increase (2 sc in same stitch)
- dec = decrease (sc 2 sts together)
- MR = magic ring
- st(s) = stitch(es)
- BLO = back loop only

Step 1: Start with a Magic Ring

- With green yarn, make a magic ring and work 6 sc into it.
- Pull the ring closed and place a stitch marker to track rounds.
- This forms the very top of the tree, where the star will sit.

Step 2: Crochet the Widest Tier

- Work increase rounds to build out the widest tier of the tree.
- Work in the back loops only on alternating rounds for the stepped branch look.
- Count your stitches at the end of each round.

Step 3: Shape the Stacked Tiers

- Decrease steadily as you work upward to form the cone shape.
- Each tier is smaller than the one below, giving the stepped silhouette.
- Stuff lightly with fiberfill as you go so the tiers hold their shape.

Step 4: Make the Brown Trunk

- Switch to brown yarn and crochet a small cylinder in even sc rounds.
- Only a few centimeters tall - just enough to peek under the lowest tier.
- Keep stitches snug so the trunk acts as a firm base.

Step 5: Crochet the Ornaments & Star

- Crochet tiny ornament balls in red and gold - a few sc rounds each, stuffed lightly.
- Make the yellow star with a magic ring and five points.
- Leave long tails on each piece for sewing.

Step 6: Assemble & Stuff

- Sew the trunk to the bottom of the tree.
- Stitch the ornaments evenly around the tiers, tucked between branches.
- Sew the star to the top, add final stuffing if needed, weave in all ends.

Tips

- Work slightly tight stitches so no fiberfill shows through.
- Stagger the red and gold baubles between the tiers for a naturally decorated look.
- Make a forest of three or four trees for a mantel display or handmade garland.
- A small cardboard circle inside the trunk base adds extra stability.
